

HORSES

Equine Infectious Anemia (EIA) — All horses must be accompanied by a record of a negative EIA test within the last 12 months.

POULTRY

A MDA Domestic Poultry and Exotic Bird Poultry Premises Registration Number will be required for Maryland poultry producers to exhibit at 2019 Fairs and shows. Information concerning that registration will be available on the MDA website by March 2019.

Pullorum-Typhoid: All exhibitors must show proof that poultry originated from a Pullorum-Typhoid Free Flock or have been tested negative for pullorum-typhoid not more than 90 days before the exhibition. Proof is to be documented on MDA-E06 and MDA-E20, VS Form 9-2, VS Form 9-3 or comparable form. Junior 4-H exhibitors of broiler stock only can substitute the above with either MDA-E-16 Health Certificate for Show or official letter endorsed by a MD Cooperative Extension Agent attesting to approved source of the birds. The health of the birds need not be attested to, only that they are from an approved source. Testing must be completed before arrival at exhibition.

Avian Influenza (AI): All poultry must originate from a flock that is a participant of the U.S. NPIP Avian Influenza-Clean Flock Program. Otherwise, the exhibitor must have a minimum of 15 birds (or the complete flock if fewer than 15) randomly tested negative for AI by an official test (AI-AGID, AI-PRT PCR, or VI) by a state or federally recognized laboratory. For exhibitors who want to test only the birds exhibited, all of the birds to be shown must be tested for AI at least 20 days prior to the event and be negative. The results will be good for 20 days after insurance. Certification will be revoked if tested birds are commingled with non-tested birds. The samples should only be collected by a State Dept. of Ag. Animal Health staff, an accredited veterinarian or a state-certified poultry technician. A flock wherein at least 30 birds or complete flock were tested negative for AI will qualify to register as a US NPIP Avian Influenza-Clean flock and will only need to be retested every 90 days to maintain that status, provided no untested poultry was commingled during that period. All poultry entries must be individually tagged and shall be accompanied by MDA-E06 and MDA-E20, USDA VS Form 9-3 or a CVI indicating negative avian influenza test results.

QUESTIONS

If you have any questions please feel free to call 410-841-5810 or write to the : Maryland Department of Agriculture, Animal Health Section, 50 S. Truman Park Way, Annapolis, MD 21401.

FXATED SHOW CERTIFICATES WILL NOT BE ALLOWED AT THE SHOWS UNDER ANY CIRCUMSTANCES. INCOMPLETE FORMS WILL BE RETURNED!

29. Supreme Champion Junior Champion.
30. Supreme Champion Senior Champion.

PUREBRED DAIRY CATTLE ASSOCIATION'S SHOW RING CODE OF ETHICS

The following major violations are considered fraudulent or unethical and will be reported to the respective breed association and show management and can result in animals or exhibitors being barred from showing in their respective breed shows:

1. Misrepresenting the age and/or milk status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally, with an irritant or counter irritant, or other substance to artificially improve the conformation.
3. Surgery or insertion of foreign matter under the skin or into the body cavities, performed to change the natural contour

or appearance of the animal's body, though not to preclude practices required or involved in normal management.

4. Criticizing or interfering with the judge, show management or other exhibitors while in the Pavilion, or other conduct detrimental to the breed or the Show.
5. Challenging, threatening, or interfering with an ethics committee appointed by Show management to monitor the animals on exhibit on the Show grounds.
6. Excessive manipulation of hair.
7. The following violation is defined as unethical practices that detract from the Pavilion and will be given slight to serious discrimination. Exhibitors will be asked to undo or remove the manipulation before they enter the ring or the judge will give the animal discrimination in class by lowering the animal's class rank:

Setting teats or manipulating a teat to alter its normal position, such as to unnaturally hold it plumb or to alter its length is an unacceptable practice.

The following minor violations are considered to detract from the image of the Show when carried to excess and will be given slight to moderate discrimination by the judge when placing animals:

1. Improper fitting practices such as over filling and over bagging.
2. Use of artificial hair except for false switches.
3. Mistreatment of an animal.
4. Unsportsmanlike conduct on the part of showman.

Practices, which should be encouraged to enhance the image of the Show:

1. Follow uniform dress code for dairy exhibitors in the Pavilion. No shorts above the knee.
2. Recognize good herdsmanship and exhibits in the barn. In keeping with the basic philosophy of the PDCA, ethics are an individual responsibility of the owner of each animal shown.

Violations of these policies are subject to disciplinary provisions of the appropriate dairy breed association and/or Show management.
